I am a Frontend Developer with a particular interest in JavaScript ecosystem. With 4 years of experience in the field, I am a fast learner and excited by solving problems. Experienced in collaborating with designers, back-end developers, and other stakeholders to ensure project requirements are met. Offering a strong attention to detail and accuracy, excellent problem-solving skills and the ability to work in fast-paced team environments.

WORK EXPERIENCE

Senior Frontend Engineer
Clarivate

07/2024 - Present   *Belgrade, Serbia*

Clarivate offers global analytics and insights in intellectual property, life sciences, and academic research

Achievements/Tasks
- Developing a web app for users to manage their intellectual properties using Vue3 Composition API.
- Conducting code reviews, provided constructive feedback, and mentoring junior developers to ensure code quality, best practices, and skill enhancement.
- Optimizing web applications for maximum speed and scalability

Frontend Developer
IVC Evidensia

11/2021 - 07/2024

IVC Evidensia is the leading global veterinary care provider

Achievements/Tasks
- Maintained and improved a React Native app for a leading veterinary care group using React Native with Typescript.
- Developed code that guaranteed a responsive user interface, functioning seamlessly for web using Vite and React.
- Created unit tests to ensure that the code is tested up to 90% coverage, as well as incorporated Detox for end-to-end testing.
- Implemented Yarn workspaces to ensure proper segregation of the application into features and flows.
- Incorporated Firebase, Sentry, and Appsflyer for tracking purposes, and integrated Growthbook to enable feature toggles and AB testing.
- Collaborated with designers and back-end developers to implement user interfaces, ensuring consistency with project requirements and style guides.

Frontend Developer
Marble IT ↗

*04/2021 - 11/2021*   *Novi Sad, Serbia*

Outsourcing IT company

Achievements/Tasks
- Built stable and maintainable codebase using React Native and React with TypeScript.
- Collaborated with designers to ensure designs were efficient and technically sound.
- Added to the company database of code by developing reusable, clean code and components that could minimize the time needed to complete projects in future.
- Worked closely with the engineers that worked on a back-end to implement RESTful APIs.
